Internationally recognised Risk, Investigation and Dispute experts

Who We are

FTI Consulting is an internationally recognised leader in providing independent Risk, Investigation and Dispute services to the business and legal community. We have been recently named in **Forbes'** inaugural list of America's Best Management Consulting Firms and continue to be recognised as leading experts in **Who's Who Legal**. In 2015, FTI Consulting was recognised by **Who's Who Legal** as leading experts in the areas of Commercial Arbitration, Investigations and Asset Recovery.

Risk and Investigation Services

Our multidisciplinary team of specialist investigators, forensic accountants, data analysts and technology experts undertake investigations involving corporate fraud, white collar crime, regulatory scrutiny, and bribery and corruption allegations. Our Risk and Investigation Services include, among others:

- Anti-bribery, corruption and sanctions investigations (FCPA/U.K. Bribery Act)
- Fraud investigations
- Financial and regulatory investigations
- Anti-money laundering investigations
- Audit and special committee investigations
- Regulatory compliance and monitoring
- Reputational due diligence and business intelligence
- Brand integrity and risk mitigation services
- Asset tracing
- Data analytics
- E-Discovery services
- Fraud risk management

Dispute Services

Questions on valuation, economics, finance and accountancy often arise in the resolution of international and domestic disputes. The number and scale of such disputes is growing, as is the complexity of associated evidential, valuation and damages issues – areas in which we have renowned expertise. Our Dispute Services include, among others:

- Quantification of loss and damage
- Contentious business valuations
- Shareholder, joint venture and post-acquisition disputes relating to questions of value and damages
- Expert determinations in sale and purchase disputes
- Forensic accounting
- Independent expert witness services
- Accounting disputes
- Intellectual property disputes
- Complex cost, pricing and financial analyses
- Financial modelling
- Damages strategy and exposure analysis
- Visualisation of complex data sources
- Structured data discovery
