**International Law Joint Platform**

Capturing  
Opportunity

**While multinational corporations continue to see potential in China, local companies are becoming increasingly keen on growth and expansion — across the country and abroad.**

FenXun Partners provides top-tier corporations with practical legal counsel and valuable insight into local and global markets. With a deep understanding of the country's legal, commercial and political landscapes, we help you seize opportunities and overcome challenges whether you're doing business in the country or investing overseas.

### **Strategic and effective counsel**

We have worked with key players in China's major industries and can offer insight into key issues impacting businesses.

With decades of combined deal experience, we understand the interplay between the legal and financial aspects of high-value investments.

Our lawyers have advised both buyers and sellers, and can approach each deal from multiple perspectives to deliver optimal value.

## Proven, on-the-ground experience

Our firm is at the forefront of regulatory developments and can act swiftly to guide you through the intricacies of investing and operating in China. Through long-standing relationships with leading international law firms, we are uniquely positioned to address the multifaceted issues and risks facing international corporations as well as state-owned and private Chinese enterprises.

## How we can help

Many of our lawyers have spent a majority of their legal careers in international firms executing cross-border transactions for multinational companies. With that experience, we can provide practical and strategic solutions in the following areas:

- Anti-monopoly/Competition law
- Asset-backed securitisation
- Banking and finance
- Commercial litigation, arbitration and dispute resolution
- Corporate finance, mergers and acquisitions, and reorganizations
- Employment
- Foreign investment in China
- Intellectual property services, including intellectual property litigation and dispute resolution
- Real estate
- RMB investment funds, private equity, hedge and real estate funds, and derivatives
- Securities offerings and listings, IPOs
- Tax

# First in China Strong Local Expertise Combined with Profound International Insights

On 15 April 2015, FenXun Partners and leading global law firm Baker McKenzie received approval to establish Baker McKenzie FenXun (FTZ) Joint Operation Office in the China (Shanghai) Free Trade Zone. It is the first joint operation that has been approved by the Shanghai Justice Bureau.

The Joint Operation is a historic step in providing clients with integrated international and local PRC law advice from a single and uniquely aligned platform. The Joint Operation allows Baker McKenzie and FenXun Partners to provide collaborative responses to client needs, including joint execution of client matters, secondments of lawyers between the firms, and exchange of know-how.

Baker McKenzie and FenXun Partners remain structurally separate and independent, as required by current PRC regulations.

Baker McKenzie has facilitated some of the most significant and precedent-setting transactions in China. The firm serves foreign multinationals, Chinese state-owned enterprises and up-and-coming Fortune 100 companies across all major industry sectors. With 78 offices in 46 countries, including all of the world's major financial centres, the firm brings a global perspective and deep local knowledge to bear on client matters.

FenXun Partners is a law firm established in Beijing and approved by the Beijing Justice Bureau in 2009. Our mission is to deliver services that help clients achieve their strategic and commercial objectives with precision. Beijing-based and globally experienced, our lawyers understand the commercial, operational and political realities that shape high-value transactions in China and draw upon their deep experience to provide practical advice.
