

Connecting the world's best professionals

Taylor Root is the world's largest and most successful legal, compliance and risk recruitment consultancy. Having operated in Asia for 19 years, we have excellent relationships with General Counsel and an enviable talent network of top flight lawyers.

Our reputation is built on the quality of our people. We hire experienced recruiters, almost all of whom are qualified lawyers, ensuring an in-depth understanding of their client's businesses and challenges. This translates into only the strongest candidates being submitted to the financial institutions and corporates we work with.

We devote whatever means are necessary to ensure that, for every assignment we undertake, a professional, successful conclusion is reached on behalf of our client.
